**Subject:** Endovasc press release

Dear Mr. McCormick,

I am the Project Monitor of the PM External Research Program-funded project entitled "Development and Evaluation of Therapeutic Delivery Systems for Administration of Nicotine (NRA) in Vascular Diseases" by Dr. Diane Dottavio of Endovasc Ltd., Inc.

I am attaching some of the chronological events (which we feel are significant) that are on file regarding the above project along with our comments to correct the Endovasc press release (page 2 of the attachment). Please let me know if you need additional information or any clarification.

Sincerely,

Tapas Sengupta
